We know from first hand experience that adult back pain and spinal disorders may stem from childhood activities including carrying a heavily loaded backpack for twelve or more years of schooling.

The NYDA Active Pak Lite range has a great ergonomic design and is one of the lightest school bags on the market. Personally, I was amazed to find a practical yet stylish backpack that puts back pain issues in the past!

"The NYDA Active Pak Lite School bag range certainly gets my tick of approval".

I was impressed to find a school bag that was not only addressing the weight issue of school bags, but was also promoting a reduction in student loads by designing a backpack that was technology equipped.

For parents the lifetime warranty makes the NYDA bags a sound investment in the healthy back care of their child.

I will certainly be recommending a NYDA Active Pak Lite School bag to my patients.
